HYDRAJAWS TESTER

M2000 KIT 1 Cable Frame Lifeline Tester Kit

Our latest design is light, compact and very user friendly. Manufactured to exacting high standards, the Hydrajaws M2000 Safety Lifeline Cable Tester frame clamps directly to the 8mm wire rope and comes with all the accessories to test existing installations including those with long terminating assemblies without any additional parts needed. Trusted by market leading fall protection installation companies worldwide, the Safety Lifeline Cable Tester is an essential tool for carrying out testing procedures conforming to relevant BS and international standards.

The Hydrajaws Safety Lifeline Cable Tester KIT 1 (Frame Only) for operators who already own a M2000 Tester, enables engineers to validate the strength of swaged components of newly installed or existing engineered lifeline systems to ensure compliance with BS 7883 up to a maximum tensile load of 25kN.

The 'Kit 1' Cable Frame only is offered with the following items:

- Cable test frame with extension bars
- Single hinge clamp arrangement with two bolts
- Supplied in a robust protective carry case
- Knurled adaptor 8mm (10mm & 12mm optional)
- Barrel clamp 8mm
- Fork adaptor 12mm
- Operation nut
- 22mm A/F ratchet spanner
- 6mm hex key and spare cable clamp bolts and screws
- Full operating instructions

Cable Frame ONLY

Product Code: TESTER-030-001
