TUFF-POST 600 Concrete Mounted with RetroLink

Product Code: TUFF-POST600C-RET

TUFF POST is designed to raise the height of a height safety system using a 600mm TUFF POST.

TUFF POST is a sealed unit made entirely from stainless steel. Designed to be submerged into garden beds, water and other mediums. **TUFF POST** is used in conjunction with a SafetyLink lifeline or energy absorbing eyebolt system.

- **TUFF POST 600** raises system 600mm off the ground.
- **TUFF POST** can be used with the FrogLine Lifeline, energy absorbing Abseil Eyebolt or collared eyebolt.
- Suits positions like garden beds on roof tops.
- Must be chemically fastened.

SafetyLink will provide you with the following:

- All products tested and manufactured to Australian and New Zealand Standards.
- All distributors and installers are trained to use SafetyLink products.
- Supply installation guides, testing results and product sheets.
- Layout Design Service providing compliant roof safety systems.
- Supply a large range of roof anchors that protect you from the ground up, allowing complete access to your roof.
- Installers are qualified to do yearly inspections on your anchors as per Australian and New Zealand Standards.
