

V-Line SafetyLink's NEW Vertical Lifeline

VERTICAL LIFELINE DESIGNED TO ENSURE SAFETY FROM THE GROUND UP

- 🔍 Drone inspectable.
- 🔍 Longer than industry average inspection times.
- 🔍 Minimal components creating a quick and simple competitive system to install.
- 🔍 Energy Absorbing Vertical Lifeline Shuttle with Karabiner will track up or down with user vertically and self lock if a fall occurs.
- 🔍 Vertical lifeline can be mounted to either side of the ladder.
- 🔍 V-Line can be installed whilst installing your ladder or retro fitted.
- 🔍 Manufactured from quality 316 stainless steel and galvanised steel.
- 🔍 The V-Line Vertical Lifeline is rated for up to 2 users per system with a maximum user weight of 150kg and a minimum of 50kg.
- 🔍 Complies with AS/NZS 1891.3, EN353.1.

SafetyLink will provide you with the following:

- 🔍 All products tested and manufactured to the current Standards.
- 🔍 All distributors and installers are trained to use SafetyLink products.
- 🔍 Supply installation guides, testing results and product sheets.
- 🔍 Layout Design Service providing compliant roof safety systems.
- 🔍 Supply a large range of roof anchors that protect you from the ground up, allowing complete access to your roof.
- 🔍 Installers are qualified to do yearly inspections on your anchors as per the current Standards.
