FROGLINE LIFELINE

Horizontal Lifeline Shuttle | Product Code: STAT.SHUTL005

- SafetyLink's Horizontal Lifeline Shuttle incorporates flawless functionality with a durable solid stainless steel construction.
- Allows the shuttle smooth continuous connection whilst traversing the length of the horizontal lifeline.
- The FrogLine's Horizontal Lifeline shuttles multifaceted locking system is a user friendly connecting method that ensures only deliberate actions by the operator will enable safe engagement and disengagement from the horizontal lifeline.
- Continuous connection with 8mm stainless steel cable, utilising the Shuttle System, up-to four users per system, two per span.

The building or structure for the anchorages must be assessed by an engineer, unless it is clear to a competent person that the structure is adequate.
