

The polelink is designed to be installed on poles/trees on high ropes courses to create quick safe access whether that be for participant entry to a course or for staff rescue situations. Pole LadderLink has been made from quality materials to have an extended life when permanently installed outside.

- ▲ Creates a safe and secure ladder entry point.
- ▲ Eliminating ladder slippage on the pole.
- ▲ Designed to be mounted to poles or trees, with five fixing holes for screws.
- ▲ Comes with two optional ladder rung retaining saddles to permanently fit ladder to pole so ladder can be raised to restrict access if desired.
- ▲ 30cm wide x 25cm high x 25cm deep.

Safety Centre
Training

- ⚠ Adjusting the pitch of the LadderLink is to be done by a sheet metal fabricators' bending machine. LadderLink is made from high tensile aluminium therefore ensure the bender is set on a high radius to prevent cracking.
- ⚠ Protective coating must not be removed.

COMPLETE UNIT - PRODUCT CODE: LADFX006

Product Parts	Description	Qty	Weight (kg)	Material
LADFX006	Ladderink: Pole Mounted	1	2.0	Marine Grade Aluminium
